

Wilmar Fernando Pineda Rojas

Senior Full-Stack Engineer | Python | TypeScript | AWS

Bogotá, Colombia - Open to remote work

+57 301 785 2790 | wfpinedar@gmail.com | github.com/wfpinedar

Professional Summary

Senior full-stack engineer with 10+ years of software development experience and 6+ years in backend and full-stack roles. Specialized in Python, FastAPI, Django, REST APIs, microservices, and AWS-hosted platforms, with hands-on experience integrating React, Next.js, and TypeScript. Combines end-to-end delivery with solution design, code review, mentoring, and close collaboration with product, QA, and infrastructure teams.

Core Skills

Backend	Python, FastAPI, Django, Flask, REST APIs, microservices, business rules
Frontend	TypeScript, JavaScript, React, Next.js, frontend/backend integration
Data	PostgreSQL, PostGIS, SQL, SQLAlchemy, data modeling
Cloud and delivery	AWS EC2, S3, Lambda, RDS, Fargate, Docker, Azure DevOps, CI/CD
Engineering quality	Automated testing, TDD, code review, Git, Linux, observability
Languages	Spanish - native; English - B2 professional working proficiency

Professional Experience

Ministry of Commerce, Industry and Tourism

Software Engineer

Colombia

Aug. 2025 - Present

- Support cloud deployment and operational readiness for services used by a public-sector transactional platform on AWS.
- Configure environments, validate releases, and coordinate with development and infrastructure teams to prepare services for production and operational continuity.
- **Technologies:** Python, FastAPI, AWS, Docker, CI/CD.

Imagemaker

Senior Software Engineer

Remote

May 2022 - Jul. 2025

- Built Python and FastAPI backend services and APIs integrated with frontends, third-party platforms, and AWS-hosted components.
- Contributed to the design and implementation of three PKI services: Registration Authority (RA), Certificate Authority (CA), and PKI administration.
- Served as a technical reference in a 10-person team and directly mentored 6 engineers through code reviews, pairing, and engineering practice guidance.
- Delivered solutions with AWS Lambda, RDS, EC2, and Fargate, together with automated CI/CD pipelines and deployments in Azure DevOps.
- **Technologies:** Python, FastAPI, AWS, Docker, Azure DevOps, React, TypeScript, Java, Spring Boot.

Esri Colombia

Solutions Software Engineer

Bogotá, Colombia

Aug. 2019 - Jun. 2022

- Developed Python automation and data-processing workflows for Esri web and desktop products, including geospatial services and API integrations.
- Led the analytics team and provided technical guidance to Business Partners on solution design, integration, and troubleshooting.
- Developed YOLO object detection models for heavy construction machinery in rainforest imagery and image classification models to estimate deforestation in Chiribiquete National Natural Park.
- **Technologies:** Python, ArcPy, ArcGIS JavaScript API, REST, SQL, YOLO, machine learning, spatial analytics.

Professional Experience

Liftit

Middle Senior Python Software Developer

Bogotá, Colombia

Feb. 2019 - Jul. 2019

- Developed Django and Flask APIs and backend services for logistics optimization, analytics, and operational products.
- Contributed to Elixir/Phoenix and Ecto components, data integrations, and PostgreSQL persistence.

BSF-Swissphoto AG

Python Developer for QGIS

Bogotá, Colombia

2018

- Designed and implemented a QGIS plugin with PyQGIS, Qt, and PyQt, integrating forms, geoprocessing, and PostgreSQL/PostGIS persistence.

UPRA, Corprogreso, Cuatro Conceptos, and Universidad Distrital

Software and Data Development

Bogotá, Colombia

2013 - 2019

- At UPRA, automated end-to-end agricultural-planning deliverables for avocado, cotton, rice, banana, coffee, cattle, buffalo, and other variables, from spatial analysis to final maps, documents, and presentations.
- Developed Python/ArcPy scripts, Django applications, and data services for environmental systems, analytics, and territorial information management.
- Worked with PostgreSQL, PostGIS, MariaDB, Linux, and data migration, extraction, and loading processes.

Selected Full-Stack Projects

Sector Analysis - Cross-impact matrix application

FastAPI, Next.js, TypeScript, PostgreSQL, and Docker

Public project

2026

- Built an application to capture and validate MICMAC matrices, calculate driving power and dependence, and classify variables into analytical quadrants.
- Implemented a FastAPI and SQLAlchemy API, a Next.js 14 TypeScript frontend with interactive visualizations, and CSV/Excel import and export workflows.

Newsletter Manager

Django REST Framework, React, and Docker

Public project

2026

- Built an application to manage subscribers and schedule newsletters with attachments through a containerized Django API and React frontend.

Education

Universidad Distrital Francisco José de Caldas

M.Sc. in Information and Communications Sciences

Bogotá, Colombia

2023 - 2025

Universidad Distrital Francisco José de Caldas

Graduate Specialization in Geographic Information Systems

Bogotá, Colombia

2015 - 2016

Universidad Distrital Francisco José de Caldas

B.Eng. in Cadastral Engineering and Geodesy

Bogotá, Colombia

2007 - 2015

Selected Certifications

- 2020 **DS4A / Colombia 3.0 - Graduated with Honors**, Correlation One
- 2020 **DP-100: Designing and Implementing a Data Science Solution on Azure**, Microsoft
